## Mission

To exchange, enhance and promote expertise in the management of sites for nature, throughout Europe. Eurosité is unique – it is one of the largest pan-European networks bringing together governmental and non-governmental organisations, as well as private bodies, in active collaboration for the practical management of Europe's nature. There are currently 96 members of the Eurosité network from 26 European countries engaged in the delivery of this mission.

## Upcoming events

### 7th GENERAL ASSEMBLY OF THE ALPINE PROTECTED AREAS

**Event:** 20/10/2010 - 23/10/2010

REGISTRATION 7th GENERAL ASSEMBLY OF THE ALPINE PROTECTED AREAS 20-23/10/2010 – Zerne /Swiss National Park

The event will be held from 20-23 October 2010 in Zerne, Switzerland. The **Swiss National Park** is located in the heart of the Alps and was founded in 1914, making it the first national park in central Europe. Since its inception, the park has sought to leave Nature to its own devices. That aim remains a priority today. But what happens when we let Nature run wild? The thematic conference entitled "Wilderness and biodiversity: can we leave Nature in the Alps to its own devices?" will be an opportunity to discuss this and similar issues.

### European Green Capital Conference

**Event:** 20/10/2010 - 22/10/2010

An inspiring conference offering exchange of know-how on sustainability for ambitious cities aiming higher.

The conference will present examples of how Stockholm and other European cities are working with the same main challenge: meeting the demands of growing cities; while maintaining sustainable economic development and decreasing the negative impact on the environment. This calls for intelligent urban solutions and a European cooperation on a local level.

The conference is relevant for decision makers – politicians and officers – from ambitious cities in Europe and the rest of the world. Delegates and participants will be given plenty of opportunities to contribute to the conference agenda.

The conference will focus on urban challenges in a European and global context and will offer a unique opportunity for participants to create networks where one can exchange ideas and examples of both global and local solutions.

### Climate 2010 Online Conference : "Climate Change and the Sustainable Management of Water Resources"

**Event:** 01/11/2010 - 07/11/2010

The World's CO2-friendly Scientific On-line Climate Conference

CLIMATE 2010 / KLIMA 2010 will be organized from 1 to 7 November 2010, focusing on "Climate Change and the Sustainable Management of Water Resources"

The thematic focus of CLIMATE 2010 / KLIMA 2010 will allow in-depth discussions and support the search for global and regional solutions for the impacts climate change have on water supplies and will address the need to promote sustainable water use across the world.
